क्यूआर कोड लागू करने के संबंध में अलर्ट

ALERT REGARDING IMPLEMENTATION OF QR CODE

6th July, 2022

यह सुरक्षित क्यूआर कोड के अनिवार्य कार्यान्वयन के संबंध में बीईई के 31 मार्च, 2022 के अलर्ट के क्रम में है।

This is in continuation to BEE's alert dated 31st March, 2022 regarding mandatory implementation of secure QR code w.e.f. 1st January, 2023.

Accordingly, it is to inform that with an intent to authenticate the technical specifications of star rating issued to any model under BEE star labelling program for refrigerators, the online portal for seeking QR code has been made live w.e.f. 1st July, 2022.

In this regard, a step-by-step workflow for implementation of QR code at the production lines of each manufacturing facility has already been shared by BEE. A copy of the same was also shared on the email ID of each manufacturer registered under BEE's Refrigerator labelling program.

Additionally, please note that, w.e.f 1st July, 2022 a new feature of QR code has been made available on approval letters. The QR code feature on approval letters has been made live with the purpose of validating the approval letters issued by BEE.
