

REFERENCE MANUAL
FOR
EXISTING AGENCIES MIGRATED
TO NEW BEE S&L WEB PORTAL

JUNE, 2013

The Reference Manual contains following information with intent to help the BEE S&L E-filing website users:

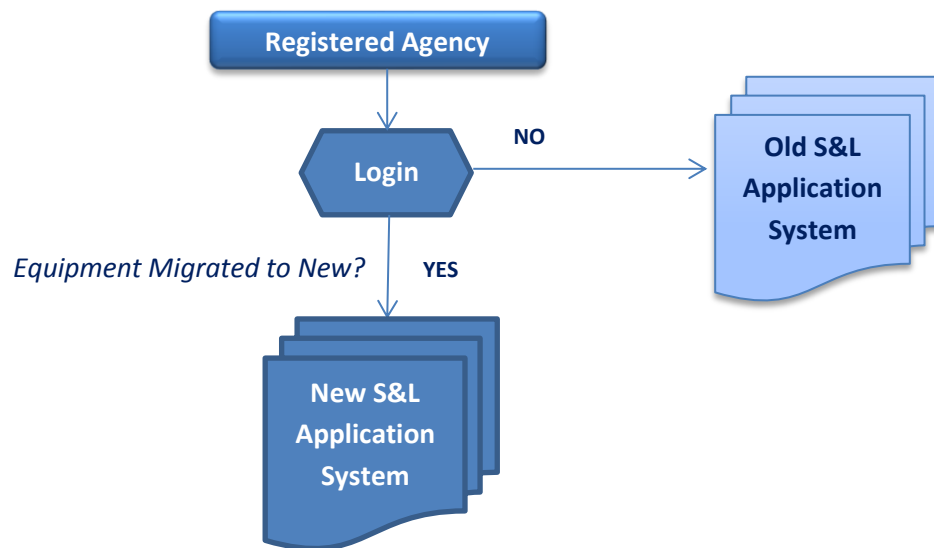

- Workflow Summary
- Process Diagram
- Help Screens

Bureau of Energy Efficiency, hereby referred to as BEE, is in the process of migrating registered agencies gradually to new system developed for S&L scheme. Also, all new agency registrations effective May 7 2013 are being processed in the new S&L application server.

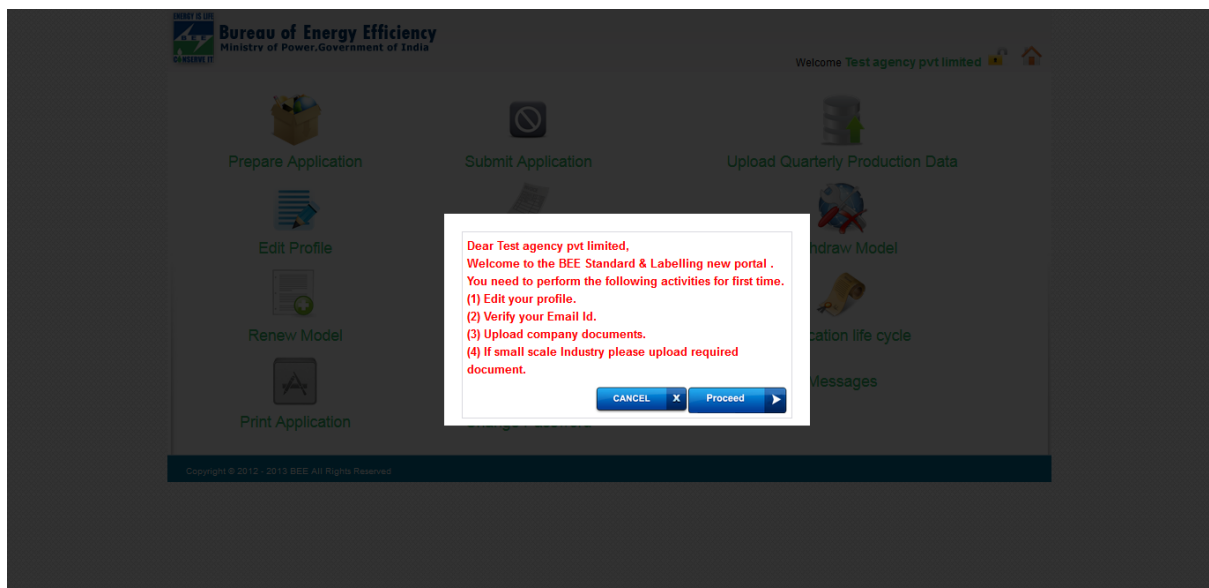

This document has been prepared to guide all registered agencies which have been migrated to new Web Portal for BEE Standard & Labelling Programme from old system. Please refer to Equipment migrated list available on login screen to check whether your agency have been migrated or not.

If the equipment for which your agency was registered initially does not exist yet in that list, then it's under process of migration and for now, as before, you will be automatically re-directed to old BEE S&L application system on login.

Work Flow Summary & Process Diagram

On Login, if your equipment is migrated to New S&L, you'll see similar message as shown below.

On clicking “PROCEED”, it will navigate to AGENCY DETAILS (as shown below) where you'll need to verify the information migrated on the New S&L system

and submit the requested documents. If you'll click "CANCEL" it will take you to login page.

5. measurement of Insulation resistance [IS 2026 (part 1):1977]
6. Induced over-voltage withstand test [IS 2026 (part 3):1981]
7. Separate-source voltage withstand test [IS 2026 (part 3):1981]
8. Lightning impulse-test [IS 2026 (part 3):1981]
9. Temperature-rise test [IS 2026 (part 2):1977]
10. Short-circuit test [IS 2026 (part 1):1977]
11. Air pressure test [IS 1180 (part 1):1989]
12. Permissible flux density and over fluxing [IS 1180 (part 1):1989]
13. Annexure A (Form for reporting the result of test)

About Standards & Labeling Programme
The Objective of Standards & Labeling Programme is to provide the consumer an informed choice about the energy saving, and thereby the cost saving potential of the marketed household and other equipment. This is expected to impact the energy savings in the medium and long run while at the same time it will position domestic industry to compete in such markets where norms for energy efficiency are mandatory.
The scheme was launched by the Hon'ble Minister of Power in May 2009 and is currently involved for appliances/appliances of First Family/Fridge, refrigerator, Tubular Fluorescent Lamp, Room Air Conditioners, Direct Cool Refrigerator, Distribution Transformer, Induction Motor, Pump Set, Ceiling Fan, LPG Stove, Ceiling Fan and Ceiling Fan.

Please Read the General Instructions **Please Read the Important Instructions Before E-Filing** [Download PDF/CDR](#)
