Important Instruction regarding star labelling Program for Light Commercial AC

This is to inform that Bureau of Energy Efficiency launched the Star Labeling Program for Light Commercial AC on the occasion of 19th Foundation Day of BEE, celebrated on 2nd March, 2020. The program covers single and three phase non ducted single split with, fixed and variable speed air-conditioner with rated capacity above 10.5 kW upto and including 18.0 kW of the vapour compression type covered under the scope of IS 1391 (Part 2).

The energy consumption standards for Light Commercial AC(LCAC) are applicable from 2nd March, 2020 to 31st December 2021. The portal for registering the LCAC models has been made live from 2nd March 2020, yet no model has been registered with BEE till date.

In this regard, all manufacturers are requested once again to expeditiously register their models with BEE at the earliest.
